

Ontario/Rhône-Alpes Student Exchange Program

Application Information 2021–2022

**for Rhône-Alpes students
studying in Ontario**

ora.ouinternational.ca

Updated in December 2020

Prepared by the Ontario Program Office

Thank you for your interest in the Ontario/Rhône-Alpes (ORA) Student Exchange Program. This booklet has been prepared by the exchange's Ontario Program Office based on information available in the fall of 2020. **For updated information, it is essential that applicants consult the ORA website at www.ora.ouinternational.ca.**

Your university's international office *Direction des Relations Internationales* (DRI) is an excellent source of information about the exchange; it also carries out the selection process. In Rhône-Alpes, the ORA exchange is coordinated through the international office at the Université Lumière Lyon 2; in Ontario, the Program Office is located at York University in Toronto.

Individual University Listings

The rest of this booklet is dedicated to information about the individual Ontario universities. In using the individual university listings, please keep the following in mind:

- UHIP is the acronym for the University Health Insurance Plan, which is mandatory for all Rhône-Alpes students in the ORA program (the University of Windsor uses Green Shield that replaces UHIP).
- A meal plan is a pre-paid plan through which students pay for meals at cafeterias and restaurants on campus, and in some cases for food and supplies in grocery stores on campus.
- Graduate and undergraduate levels: Students are considered undergraduate when they take courses at the Bachelor's level (B.A., B.Sc., B.F.A., B.Com, etc.), and graduate when they take courses at the Master's (M.A., M.Sc., MBA, etc.) or Doctorate (Ph. D.) levels.
- Since in France, a BA is a three-year program, in Ontario, the Masters 1 is considered to be the equivalent of the fourth-year of an undergraduate degree. Students in M1 usually take courses primarily at the fourth and third-year levels. Students in M1 are not accepted by Faculties of Graduate Studies in Ontario because they are in the first-year of a two-year degree.
- Only students who are in M2 are considered to be at the graduate level. However, there are a number of challenges: not all Graduate Faculties accept exchange students and a TOEFL score of 100 is required.
- GMAT: Graduate Management Admission Test (for Business schools)
- TOEFL: Test of English as a Foreign Language
- IELTS: International English Language Testing System
- iBT: Internet based testing
- ESL: English as a second language
- French courses are offered in all the Faculties at Laurentian University in Sudbury and at le Collège universitaire Glendon, York University in Toronto.

Carleton's academic departments reserve the right to restrict courses not found on this list if deemed necessary.

Academic Notes

Course availability is subject to change and for this reason we **cannot guarantee registration in specific courses.** For exchange term(s) at Carleton, students should create a study plan that includes a mixture of courses from their major, minor, concentration and most especially free electives.

The courses listed on an Incoming Exchange Application form will be reviewed by Carleton's departmental advisors. If courses have been selected from more than one discipline, a request will be sent to the designated department contact for each discipline.

Carleton University (Ottawa)

Academic Notes

Our academic departments will determine which courses an exchange student is approved to take. Each department has their own criteria when assessing course requests, the most important of which is whether a student has the required academic background to meet the course prerequisites.

NOTE: A student may not be approved to take all of the courses they have requested on their application. This can be due to a number of factors, including but not limited to: course is restricted and not open to exchange students, course is full, course is not offered in correct exchange term, course is cancelled, course conflicts with other registered courses or the student does not meet the academic prerequisites to take the course.

Undergraduate Calendar:

Undergraduate Courses:

calendar.carleton.ca/undergrad/courses/

Information on your course registration will be emailed to the Carleton email account for undergraduate students from the Registrar's Office. Included in that email will be detailed instructions on how to make registration changes.

If it is determined that you have a higher level of proficiency, you will be required to withdraw from the course. Your placement test would be completed in the main office of the [School of Linguistics and Language Studies \(SLaLS\)](#). For information on the testing schedules, please consult the [placement testing page](#) available or call +1 (613) 520-6612. Following the test, an email will be sent to your Carleton email account indicating your language placement. At this point you will be able to register in the course level indicated (space permitting). Courses

For a list of courses available in a particular term or year, use the York Courses website: <https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm>

York University (Toronto)

Restrictions on Disciplines See undergraduate studies and below. See information on Areas of Study and restricted programs on our [Coming to York on Exchange website](#).

Biology, Graduate level: Courses at the graduate level in Biology (5000, 6000) are not open to exchange students. Students take courses as part of research projects at York and therefore, students not attached to a research project are not eligible to enroll in the courses. Therefore, exchange applicants interested in Biology at the graduate level should already be involved in a research project at their home university and should submit an application including a summary of a research project. Undertaking this type of program while on exchange requires an appointed supervisor; therefore, York International will submit the summary to the appropriate representative in the Program for review and recommendation. Exchange applicants who have made independent contact with the department and already have a designated supervisor, should submit a letter of invitation from the York professor with his/her exchange application. Acceptance of the proposal is not guaranteed, but reviewed on a case by case basis and depends on availability of York professors willing and able to act as supervisors.

Engineering: Applications are reviewed by the academic program.

Human Resources Management, Graduate level: Students from partner universities without a specifically signed departmental agreement will not be able to pursue courses in this program.

Political Science, Graduate level: Demand for space in the graduate political science is high and therefore, spaces are limited. Exchange students must exceed minimum requirements for entry into the program.

Academic Notes Applicants must be in a graduate program at a recognized university, normally with at least a B (second class) standing, or with qualifications accepted as equivalent. Courses or academic work taken on exchange at York, must apply to a degree at the student's home institution, and cannot be used as degree exclusions, should the student ever decide to study as a degree student at York. Graduate programs at York University may have limited space availability for exchange students. Students must have completed a minimum of 3 years of undergraduate study in order to apply. We will work closely with partners, students and programs at York to find places for qualified applications received by the deadline.

Exchange Graduate Students applications are assessed and approved by the department/faculty. Course registration is assisted by the department.
