Updated in September 2017

Prepared by the Ontario Program Office

Thank you for your interest in the Ontario/Rhône-Alpes (ORA) Student Exchange Program. This booklet has been prepared by the exchange's Ontario Program Office based on information available in early September 2017. **For updated information, it is essential that applicants consult the ORA website at www.ora.ouinternational.ca.**

Your university's international office *Direction des Relations Internationales* (DRI) is an excellent source of information about the exchange; it also carries out the selection process. In Rhône-Alpes, the ORA exchange is coordinated through the international office at the Université Lumière Lyon 2; in Ontario, the Program Office is located at York University in Toronto.

Individual University Listings

The rest of this booklet is devoted to information about the individual Ontario universities. In using the individual university listings, please keep the following in mind:

- UHIP is the acronym for the University Health Insurance Plan, which is mandatory for all Rhône-Alpes students in the ORA program (the University of Windsor uses Green Shield that replaces UHIP).
- A meal plan is a pre-paid plan through which students pay for meals at cafeterias and restaurants on campus, and in some cases for food and supplies in grocery stores on campus.
- Graduate and undergraduate levels: Students are considered undergraduate when they take courses at the Bachelor's level (B.A., B.Sc., B.F.A., B.Com, etc.), and graduate when they take courses at the Master's (M.A., M.Sc., MBA, etc.) or Doctorate (Ph. D.) levels. **Usually** Rhône-Alpes students are admitted at the graduate level after they have completed 8 semesters of study at their home university. In other words if you have completed your Master 1 before coming to Ontario you have a chance of being admitted at the graduate level. **HOWEVER THIS IS NOT GUARANTEED.**
- GMAT: Graduate Management Admission Test (for Business schools)
- TOEFL: Test of English as a Foreign Language
- IELTS: International English Language Testing System
- iBT: Internet based testing
- ESL: English as a second language
- French courses are offered in all the Faculties at the **University of Ottawa**, **Laurentian University** in Sudbury and at le Collège universitaire Glendon, **York University** in Toronto.

Students staying for the Fall & Winter semesters or only the Winter semester may apply to the on-campus residences . However, please note there <i>are many more applicants than spaces available</i> . The application deadline is in early June. There are also several non-Ryerson-affiliated residences near campus, as well as many private apartments for rent. Students should search and apply for housing well in advance of their arrival in Toronto to ensure they find convenient and affordable accommodations as the <i>housing market is very competitive</i> , especially in the Fall. There is no temporary accommodation via Ryerson available in August before classes start.
<i>Financial Aid</i>	Financial Aid is not available to exchange students. Exchange students are occasionally allowed to work on campus, but should not rely on this possibility for their living expenses.

Exchange students are required to take a minimum of 4 courses and a maximum of 6 courses. When preparing a study plan, students should choose 8-10 courses per semester to allow for flexibility during the enrollment process, as course conflicts may arise, some courses may fill up quickly or some courses may not be offered every semester.

York University (Toronto)

Restrictions on Disciplines See undergraduate studies and below:

- **Biology, Graduate level:** Courses at the graduate level in Biology (5000, 6000) are not open to exchange students. Students take courses as part of research projects at York and therefore, students not attached to a research project are not eligible to enroll in the courses. Therefore, exchange applicants interested in Biology at the graduate level should already be involved in a research project at their home university and should submit an application including a summary of a research project. Undertaking this type of program while on exchange requires an appointed supervisor; therefore, York International will submit the summary to the appropriate representative in the Program for review and recommendation. Exchange applicants who have made independent contact with the department and already have a designated supervisor, should submit a letter of invitation from the York professor with his/her exchange application. Acceptance of the proposal is not guaranteed, but reviewed on a case by case basis and depends on availability of York professors willing and able to act as supervisors.
- **Engineering:** Applications are reviewed by the academic program.
- **Human Resources Management, Graduate level:** Students from partner universities without a specifically signed departmental agreement will not be able to pursue courses in this program.
- **Political Science, Graduate level:** Demand for space in the graduate political science is high and therefore, spaces are limited. Exchange students must exceed minimum requirements for entry into the program.

Academic Notes Applicants must be in a graduate program at a recognized university, normally with at least a B (second class) standing, or with qualifications accepted as equivalent. Courses or academic work taken on exchange at York, must apply to a degree at the student's home institution, and cannot be used as degree exclusions, should the student ever decide to study as a degree student at York. Graduate programs at York University may have limited space availability for exchange students. Students must have completed a minimum of 3 years of undergraduate study in order to apply. We will work closely with partners, students and programs at York to find places for qualified applications received by the deadline.

Exchange Graduate Students applications are assessed and approved by the department/faculty. Course registration is assisted by the department.
